SATIN FINISH CERAMIC PAVERS

The essence of any classic is enduring appeal.

Estilo™ Satin Finish Ceramic Pavers from Austral Bricks™ have timeless appeal and style. They are protected by Paveshield™; a unique protective coating that's bonded to the paver. This innovative technique repels stains and adds years to the life and lustre of your Estilo™ creations.

SATIN FINISH CERAMIC PAVERS

Our ceramic pavers are made from naturally occurring minerals that are kiln fired to lock in their colour and strength for life. The composition of the raw materials as well as the firing process may cause each run to differ. The resulting colour variation is inherent in the process and part of the appeal of our natural products. The product images in our brochures give a general indication of colour for your preliminary selection. We recommend you also view current product samples before making your final selection.

A design innovation in pavers from
